Beautifully elegant.

All Strahl® products are made of a high quality polycarbonate, a remarkable material that creates the clarity and elegance of glass. What's more, every product is hand finished to remove manufacturing join lines. The result? Beverageware that's beautiful to look at, and equally beautiful to drink from.

Exquisitely versatile.

With Strahl®, it's possible to entertain in style, anywhere. Our exquisite products are designed to be chilled in either the refrigerator or freezer, while superior insulation properties keep beverages at optimal drinking temperature for longer.

Incredibly strong.

Unlike glass, Strahl® beverageware doesn't shatter so it's an extremely safe and long-lasting alternative. Not only is it stronger, no Strahl® product is complete until it has undergone a unique finishing process to extend its lifespan and durability.

Remarkably easy to clean.

Strahl® products can be cleaned in commercial dishwasher systems with ease, at either high or low temperatures. So they're ideal for high-use situations such as restaurants, bars or catering companies.

Clearly cost-effective.

Strahl® beverageware's tough and durable polycarbonate material reduces the frequency of re-ordering, so it's a cost saving alternative to glass.

Your Strahl® 'incredible strength' guarantee.

Your Strahl® beverageware is made of the highest quality polycarbonate, a material chosen for its incredible strength, clarity and durability.

However, if you're not satisfied with your purchase due to faulty or defective materials, workmanship or manufacturing, please return the product with proof of purchase to the original supplier - and it will be replaced free of charge. Naturally, this guarantee does not extend to fair wear and tear or damage caused by misuse or mishandling.

What can you serve in your Strahl® beverageware?

The unique properties of Strahl® means cold drinks can remain cold for much longer than drinks served in glass or ceramic. You can serve almost any cold beverages or food in Strahl®, except for aniseed-based drinks such as Pernod, Anis, Ricard, Raki and Ouzo as they can cause permanent damage.

Strahl® is recommended for use with cold or room temperature drinks and food. If you plan to use it for hot drinks or in the microwave, please refer to our FAQ page at strahlbeverage.com.

stacking tumblers

Serving delightful cocktails from indoors to outdoors is easy with CapellaStack from Strahl. These virtually unbreakable tumblers are made of high quality polycarbonate and are conveniently designed for stacking. From storage to clean up, beverage service is more practical and cost efficient for operators with the ability to stack and the reduced risk of scratching & breakage.

HOW TO CARE FOR YOUR STRAHL® BEVERAGEWARE

Strahl® is made from incredibly strong polycarbonate, which requires slightly different handling to standard glassware:

Avoid stacking Strahl® products while carrying or storing (except the CapellaStack range, which is designed for stacking), as they may scratch if they rub together.

Wash your Strahl® beverageware in the dishwasher or by hand with warm soapy water to remove residues from juice, milk, stout etc. Washing in a steriliser can result in a build-up of residue.

Avoid cleaning with abrasive brushes, which may scratch. Buffing with a microfibre glass polishing cloth will remove light scratches and abrasions and help keep Strahl® strong and crystal clear.
