enhance the beauty and tranquillity

Hollowick lamps offer a wide array of unique finishes that can enhance the beauty and tranquillity of any space. From clear glass to ruby gold, you'll find the perfect style to suit your aesthetic preferences. To further elevate the elegance of the lamp, consider pairing it with a resin or wood base, or opt for candlesticks with fabric lamp shades. For a more industrial vibe, try hammered and geometric metal lamps. Regardless of your style, Hollowick lamps provide a versatile and beautiful addition to any room.

candlelight without the melted wax mess

Liquid candles from Hollowick are the ideal choice for lighting up the tabletop. These liquid fuel cells burn cleaner than solid wax candles and are disposable, making clean up quick and easy without the melted wax mess. Available in a variety of sizes, a strategically chosen liquid candle will sit low inside a table lamp in order to illuminate the colours or beauty of the lamp itself. With a burn time that is twice that of a standard tealight, Liquid Candles from Hollowick are staple for those restaurants & hotels looking for the elegance of live flame.

proper use of liquid candles

In order to illuminate the colours and beauty of a lamp, select a liquid candle that sits low within the lamp, and does not touch the sides.

flameless tealight that fits any size hollowick lamp

Nexis® LED Candle System by Hollowick is the most advanced rechargeable candle system in the world. Careful attention was paid to function, performance and ergonomics to set this ground breaking commercial lighting system apart from the rest. Features like an easy-to-grab, realistic flexible flame tip, a bevelled top for greater illumination, options of steady or flickering light, and IP44 certification for water resistance make this product a go-to choice for foodservice operators. All the while pairing up with a wireless, magnetic charging tray that holds up to 40 candles and offers a 26-hour average run time, this flameless system is top of the line.

standard heat high heat low heat

maximum heat performance

The proper placement of any chafing fuel source is critically important to have maximum heat performance. With Hollowick Easy Heat® Chafing Fuels, the wick is adjustable to accommodate different temperature levels and the can stays cool for easy handling. Simply adjust the wick to change the heat output between standard, low and high, then place on the fuel holder or table beneath to properly heat the chafing dish.

consistent flame & adjustable heat

Easy Heat® liquid chafing fuels are the go-to choice for buffet service. With a consistent flame for even heat, the wicks are located outside the canister keeping the flame position the same as it burns and the can cool so servers can easily handle during service. The wicks are also easily adjustable to provide different levels of heat to suit operator needs. Comprised of Diethylene Glycol, Hollowick's Easy Heat® fuels are non-flammable and enclosed in a sealed canister to prevent spill accidents and reuse on separate occasions.
