RCR Cristalleria Italiana was founded in 1967 in the heart of Tuscany, thanks to a group of craftsmen who, with passion and talent, brought the millenary tradition of glassmaking to a higher level.

All products are made of Eco-Crystal, a material of the highest quality and made with total respect for the environment. The factory has no need for a smokestack because the production is emission-free and uses renewable energy to create 100% recyclable products.

Today, RCR Cristalleria Italiana stands out in the market of tableware, wine-tasting and mixology, combining tradition with fervent innovation, design and research, aiming to satisfy those who use our products for all occasions.

Choosing RCR Cristalleria Italiana and Eco-Crystal means counting on Made-in-Italy quality, knowing that you have done the right thing for your business and for the environment.

MADE IN ITALY

ENVIRONMENT

0% atmospheric discharge

- RCR employs only electric furnaces.
- The process of melting and fining is completely electric and without smoke emissions.

100% recyclable

- The absolute pure raw materials used, allow the LUXION® ULTRACLEAR ECO-CRYSTAL GLASS to be 100% recycled.
- 99.9% Percent internal cullet recovery.
- No polluting bleaching agents are used in the process.

only renewable energy

- Photovoltaic panels: 38,000m²
- Biomass plant
- Geothermal Energy

ENVIRONMENT

ECO-CRYSTAL

The whole production process is completely electric while keeping an eye on consumption reduction.

energy saving

In the last 10 years, RCR has:

Reduced its electric consumption by 45%,

which is equivalent to the average consumption of a village of 5,845 people, while also

Reducing gas consumption by 28%,

the equivalent of 2,586 residential heating. RCR were able to do that without losing production efficiency.

energy recovery

RCR does not waste energy as it is constantly recycled. The energy released by machines is recovered and reused while heating is conveyed in order to fuel the heating system.

water recycling

RCR recycle 40% of water employed in the production process while the part that cannot be recycled is decanted and treated to make it extremely pure.

ethical approach in managing raw materials

RCR has decided not to use raw materials that release nitrogen oxides, the main gas responsible for acid rain. Products are made without using rare raw materials that are useful for medical purposes. For instance, Gadolinium isn't used because it is rare and essential for CT scan procedures.

PERFORMANCE

ULTRACLEAR
The most TRANSPARENT
crystal glass.

LIGHTNESS
A unique LIGHTNESS from
using pure raw materials.

RESISTANT
Extraordinarily RESISTANT
to breakage.

DISHWASHER SAFE
Tested for over 4,000
professional dishwasher uses.

PERFECT ACOUSTICS
Clear and pure SOUNDS, like
the best lead crystal.

ECO-FRIENDLY
100% RECYCLABLE.
Produced with respect of the
environment.

PERFORMANCE

3 different technologies

RCR is one of the most innovative and flexible factories in the world, using all the possible production technologies to combine tradition with the cutting edge ITALIAN DESIGN.

PRESSED

BLOWN

BOTTLES

The success of the Alkemist range lies in combining the complexity of design with the typical lightness of a tasting glass, an alchemy that makes this line unique and inimitable. The growing demand and suggestions from some of the leading hotels and restaurants in the world led us to develop the water glass and the gin glass. The composition of the line, including goblets and glasses, is suitable for professional use.

Large Mixing Goblet
660RCR300
67.0cl (23¹/₂oz)
h 237mm
ø max 104mm

ø max 87mm

Bottle with Stopper
660RCR306
107.0cl (37²/₅oz)
h 214mm
ø max 111mm

Designed for the finest table settings, Aria is the top range for RCR collections. These thin glasses are very shock resistant thanks to the high-density of eco-crystal. The design of the glass angles in from its widest point, indicating the right level of wine to be poured, while the wide cone-shaped bowl of the glass allows you to appreciate the gradations of colour at its very best.

Red Wine Goblet
662RCR308
78.8cl (27⁵/₈oz)
h 246mm
ø max 113mm

Large Wine Goblet
662RCR309
72.0cl (25¹/₂oz)

h 90mm
ø max 105mm

Tumbler
662RCR314
39.0cl (13²/₅oz)
h 90mm
ø max 89mm

Designed for modern and minimalist table décor, the flat bowl holds the wine in a trapezoid shape, typical of modern table settings. The refined design expresses this in the slight reopening of the rim which, in addition to enhancing the release of aromas, facilitates the sliding of the liquid during tasting and gives the glass a soft, elegant silhouette.

Goblet
666RCR322
65.0cl (22oz)
h 235mm
ø max 95mm

Goblet
666RCR323

The Universum universal goblet is suitable for any type of red, white or sparkling wine. It is ideal for those looking for a multi-functional and accessible table setting, its carefully crafted design makes it especially strong and sturdy for frequent use. The goblet's curvature indicates the ideal amount to pour for tasting and thanks to its versatility, it is also often used to serve aperitifs.

Marilyn Monroe once sang, "Diamonds are a girl's best friend," and this collection, features a design that creates a cascade of light, shining on the tables of consumers.

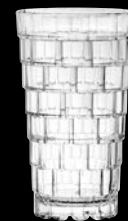

Stack represents the concept of sustainable space at its best, thanks to its space-efficient design. The tumblers, with their special anti-stuck design, are equipped with an innovative antiscald drainage system on the bottom for optimal washing in the dishwasher and can maintain cocktail temperature up to 3 times better than regular glass tumblers.

These new RCR Tiki glasses are the first in the world to be inspired by Italian culture. 100% Made in Italy and designed together with industry experts, the capacity is ideal for Tiki cocktails and more. Luxion® guarantees unrivaled transparency and resistance, while the deep decorations and the stackability of the glasses allow for a scenographic service

Half of the glass is decorated, while the other half is smooth, a feature that makes these glasses pleasant to touch and easy to grip. The design combined with the transparency of Eco-Crystal enhances their contents, making them even more beautiful. Particularly sturdy and resistant, they are perfect for everyday use.
