Freedom
Independence

The Freedom range is designed to help individuals maintain their independence by providing an innovative solution to eating and drinking.

“Food and being able to feed oneself is one of the few independent pleasures left to those with age restricted mobility”.

Innovation

Steelite International continuously strives for innovation within its field and the products that they design.

Freedom is a perfect example of an innovative range designed for a market with specific and sensitive needs. All of the product design features address problems that individuals may face with restricted mobility.
Design

The range has been developed by Steelite International’s design studio with specific features in mind:

• The plates feature a cleverly designed undercut shoulder which is helpful in getting the food onto a spoon or fork. This greatly enhances the ease of eating without assistance.

• A wide food area adds stability and helps to hold the plate in place during a meal. The curved rim profile catches any tricky overspill and prevents foods from slipping onto the tabletop.

• The mug features two sturdy handles large enough to accommodate unsteady fingers and enabling a steady satisfying drink.

• A wide base on the mug means easy placement after drinking and the avoidance of spillage.

• All ceramic items are available in pure white and a range of cheerful colours which aid recognition of the food surface.

Confidence

Not only does the Freedom range provide confidence in individuals by encouraging independence, you can also be confident in the quality and versatility of our range.

A complete range of standard items are available to co-ordinate with the offer, enabling people with restricted mobility to enjoy meals alongside their friends and family.
Trust

All ceramic products within the Freedom collection come with Steelite International’s lifetime edge-chip warranty (10 years in Germany) so you can rest assured knowing that you are in safe hands.
