Heritage leads to innovation
For over 70 years and three generations, Robert Gordon Australia has been making quality pottery. The brand stands for craftsmanship and creativity, and has been built around the importance of its heritage. While continuing to grow because of its excitement for the future, Robert Gordon pieces are created with a strong focus on innovation and design. Synonymous with quality, these porcelain products are designed and developed in Australia then handed over to China for production, ensuring the Australian aesthetic is not lost.

Robert Gordon
creative australian aesthetic
The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glaze on Pier and Storm ensures that no two pieces of this Australian-designed porcelain will be exactly alike, and Pier’s neutral taupe and Storm’s deep blue colour intensity varies from piece to piece.
